Article number: 30.412.GDH.0 Printing possible

Stacking bin - 400 x 300 x H 120 mm - closed handgrips - smooth base - white

Product specifications

External (LxWxH)	400 × 300 × 120 mm
Internal (LxWxH)	357 × 256 × 115 mm
Max. stacking load (kg)	150 kg
Capacity	11 litre
Handles	Closed
Sidewalls	Closed
Material	PPC
Article number	30.412.GDH.0
Weight (kg)	0,71 kg
Temperature range	-20°C to +50°C, briefly up to +90°C
Color	White
Bottom	Closed, smooth
Max. plate diameter	100
Load capacity (kg)	10
Quantity per pallet	152
Stacking height (mm)	110

Features

- **Modern stacking bin from the SOLID LINE series. Dimensions: 400 x 300 x H 120 mm**
- **For a wide range of applications: industrial and craft use, as well as hospitality, catering and logistics**
- **Fully closed design - both walls and base**
- **With closed handgrips - for optimal volume use and protection against dust etc.**
- **The base is completely smooth and flat for optimal hygiene**
- **The stacking bin is suitable for fitting hinged lids, optionally with snap closure**
- **Food-safe and hygienically designed**
- **Options: printing - hinged lids - coversheets**

Description

Plastic stacking bin in **Euronorm format** (**400 x 300 x H 120 mm** - 11 liter). Finished in **white** and part of our **SOLID LINE** - a product range with a wide variety of applications. Users can be found in industry and trades, as well as in hospitality, catering and logistics.
Thanks to its **standardised dimensions** (400 x 300 mm), the stacking bin is **stackable with all other Euronorm stacking bins** and combines perfectly with **standardised pallets**, **transport trolleys** or **roll containers**.
The stacking bin is food-safe, hygienically designed and fitted with two closed handgrips - for optimal use of volume and to protect the contents as effectively as possible against external influences. Fitted with a **hygienically smooth base** on the underside.
The stacking bin is also **suitable for fitting hinged lids**, optionally with snap fasteners. The lids are available in various **colours**. This makes it possible to distinguish between different applications. We refer to this as **colour coding**.
Everything for optimal logistics.
