Description

Mobile plastic pallet box type BIG BOX (1200 × 800 × H955 mm - 535 litre) with a hinged lid. The lid is fitted with a flip-over safety catch and can optionally be removed. It protects sensitive contents from damage or contamination. The exceptionally smooth-running castors with rubber tread make this mobile pallet box highly popular for use in warehouse locations and order-picking stations. The BIG BOX pallet box features convex, outward-bulging wall panels for optimal internal volume, providing up to 10% more volume compared to conventional pallet boxes. Because the box is liquid-tight and food-grade, it is also widely used in the food sector and even as a mobile feed trough, for example for horses.
