# Description

**Lidded bin in Combicolor design**

Plastic lidded bin in Euronorm format (400 x 300 x H 190 mm). Combicolor design: composed of a black stacking bin and a blue hinged lid with two snap-slide closures.

**Applications**

Combicolor lidded bins make “colour coding” possible, with each application or department assigned its own colour combination. This is easy to achieve thanks to the striking colour of the lid. Even when stacked, the lid is easy to distinguish thanks to its contrasting colour. Colour coding prevents unwanted mixing of stacking bins, helping to prevent cross-contamination, for example. In addition, striking colour combinations can be used very effectively to emphasise a product or the owner’s corporate identity. Image, or appearance, plays the main role here.

**Product details**

Due to its standardised dimensions (400 x 300 mm), the lidded bin can be stacked with all other Euronorm stacking bins (with or without lid) and is perfectly compatible with standardised pallets, mobile plastic trolleys or roll containers.

The stacking bin with lid is food-safe, has a hygienic design and is fitted with two closed handgrips - for optimal use of the bin’s volume and to protect the contents as effectively as possible against external influences. Designed with a smooth, easy-to-clean base (underside).
