Fish box 20 kg - with drain holes

Product specifications

External (LxWxH)	800 × 450 × 190 mm
Internal (LxWxH)	645 × 400 × 180 mm
Capacity	35 litre
Color	Blue
Handles	Open
Sidewalls	Closed
Material	HDPE
Article number	81670300
Weight (kg)	2,6 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Bottom	Sloping base with four drain holes and sidewards outlet in top rim

Features

- **With sloped base construction and water drain outlet**
- **Fish boxes are stackable and nestable**
- **With arrow marking as visual aid to stacking and nesting**
- **Up to 65% of space is saved by the fish boxes' nesting principle**

Description

Fish crate with drainage holes, dimensions 800 x 450 x H 190 mm. Designed for the safe and hygienic storage and distribution of fresh fish. The fish crate is equipped with an efficient drainage system. Drainage holes are located in the closed base at each of the four corners, allowing meltwater and slime to drain away and preventing these substances from entering the fish crate below. This helps ensure the optimal quality, freshness, and appearance of the fish.
The stack-and-nest fish crate is manufactured from food-grade plastic. When empty, the crates can be nested, resulting in space savings of up to 73%. Arrow markings on the upper rim indicate the correct nesting position. The crate has a capacity of 35 litres and a load capacity of 20 kg. The fish crates are fitted with a provision for transponders. RFID chips are available on request. For more information about these transponders, please contact our product specialists.
