Internal (LxWxH)	645 × 400 × 260 mm
Capacity	60 liter
Handles	Open
Sidewalls	Closed
Material	HDPE
Article number	81700300
Weight (kg)	3,8 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Blue
Bottom	Sloping base with four drain holes and sideways outlet in top rim

Features

With sloped base construction and water drain outlet

Fish boxes are stackable and nestable

With arrow marking as visual aid to stacking and nesting

Up to 65% of space is saved by the fish boxes' nesting principle

Description

Stackable and nestable fish crate with drainage holes, dimensions 800 x 450 x H 270 mm. Designed for the safe and hygienic storage and distribution of fresh fish. The closed base of the fish crate is equipped with drainage holes in all four corners. Meltwater and slime are efficiently drained away, preventing these substances from entering the fish crate below. This helps maintain the quality, freshness, and appearance of the fish. The stackable and nestable fish crate is manufactured from food-grade plastic. When empty, the crates can be nested, resulting in space savings of up to 65%. Arrow markings on the upper rim indicate the correct nesting position. The fish crate has a capacity of 60 litres and a load capacity of 40 kg. The crates are equipped with a provision for transponders. RFID chips are available upon request. For more information about these transponders, please contact our product specialists.
