Description

This robust fish crate has a capacity of 40 litres and measures 800 x 450 x H 270 mm. The crate is carefully designed without drainage holes, making it the ideal solution for the safe storage and transportation of various types of fish and seafood. The fish crate is both stackable and nestable. When nested, it provides up to 65% space savings, helping to reduce storage and transport costs. Its durable construction makes the crate suitable for a wide range of applications, from fish wholesalers to fresh fish distribution. With its generous dimensions, the crate offers ample space and protection for products while eliminating the risk of leakage or spillage. In addition, the crate can be stacked efficiently and stored compactly, maximizing valuable space in storage and logistics environments.
