Printing possible

Glass crate BASIC - 600 x 400 x H 171 mm for 33 glasses - max. height 143 mm - max. Ø 75 mm

Product specifications

External (LxWxH)	600 x 400 x 171 mm
Internal (LxWxH)	568 x 368 x 158 mm
Capacity	33 liter
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.117.33.UO
Weight (kg)	2,42 kg
Temperature range	-40°C to +70°C
Color	Grey
Bottom	Perforated, reinforced
European Article Number	7424915164191
Maximum glass height	143
Maximum Ø glass	75
Quantity per pallet	52

Features

Dimensions: 600 x 400 mm with a height of 171 mm.

Capacity: Suitable for storing 33 glasses.

Glass Height: Maximum height of glasses that fit in the crate is 143 mm.

Diameter: Maximum diameter of glasses that fit is Ø 75 mm.

Function: Designed for rinsing, storing, and transporting glassware.

Protection: Prevents contact between glasses to minimize damage.

Cleaning: Thanks to coarse perforated side walls and bottom, rinse water and cleaning agents can effectively access the glassware.

Compatibility: Euro standard size, suitable for stacking without space loss on standardized supports, roll containers, and pallets.

Options: Suitable for glassware with a base, and there are alternative crate options for different glass sizes.

Description

Attention before placing your order!

The dimensions of the glass determine the choice of the crate. Measure the height of the glass and the diameter at its widest point. Euro standard crate for rinsing, storing, and transporting glassware. The glass crate with compartments accommodates 33 glasses with a maximum height of 143 mm and a maximum Ø of 75 mm. The dimensions of the glassware determine the appropriate glass crate. If the glass is significantly shorter than 143 mm or much narrower than Ø 75 mm, this crate is not suitable. Check out other glass crates in this series for a more suitable fit. This crate has a Euro standard size of 600 x 400 mm and is 171 mm high. The glass crate accommodates 33 glasses. Glassware is completely clean after washing in the glass crate. Due to the coarse perforated side walls and bottom, rinse water and cleaning agents have good access to the glassware, achieving a clean washing result. The glasses do not touch each other, ensuring optimal protection of the glassware during storage, transportation, and cleaning in dishwashers. Thanks to the double compartment, this glass crate is highly suitable for glassware with a base. The most vulnerable part of a glass is its base. In this glass crate with upper and lower compartment divisions, even this part of the glass is optimally supported and protected. Planning to transport cups or tumbler glasses? Then a glass crate with a single compartment division is also suitable. The glass crates have a Euro standard size, making them perfectly compatible with other plate racks and stacking crates with Euro standard dimensions. Furthermore, the glass crates can be stacked without space loss on standardized supports, roll containers, and pallets.
