Description

Plastic insert bin **type BASIC** (355 x 276 x H 85 mm) for Euronorm stacking bins **600 x 400 mm**. **1/2 format - across the width** (crosswise); allowing two insert bins to be placed in each stacking bin. It can of course also be combined with other BASIC formats (1/8 and 1/16).

Application

With BASIC insert bins, you can easily create a subdivision in stacking bins. BASIC insert bins are removable and stackable with each other. The insert bins are suitable for use in Euronorm stacking bins 600 x 400 mm, from a bin height of 120 mm. Because BASIC insert bins are lower in design (85 mm instead of the standard 99 mm), the contents can protrude above the insert bin without causing problems when stacking the Euronorm bins. BASIC insert bins are therefore not suitable for use in plastic cases. BASIC insert bins are easy to remove thanks to the **rounded corners**.
