Article number: 4403.322.623 Printing possible

Latched BIG BOX pallet box - 1200 x 800 x H 830 mm - with hinged lid (also lockable) - with 3 pallet runners - blue - (gritting salt bin)

Product specifications

External (LxWxH)	1200 × 800 × 830 mm
Internal (LxWxH)	1110 × 710 × 610 mm
Capacity	535 litre
Color	Blue
Sidewalls	Closed
Material	HDPE
Article number	4403.322.623
Weight (kg)	54 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Bottom	Closed, reinforced
Max. load capacity per box	500 kg
Max. static stacking load	4500 kg
Max. dynamic stacking load	1000 kg
Quantity per pallet	3

Features

- **High volume thanks to convex walls (+10% vs conventional)**
- **Liquid-tight with closed side walls and a reinforced base**
- **Hinged lid with handle, flip-over safety catch and stainless-steel hinges**
- **Latched with 2 toggle latches (left and right)**
- **Each toggle latch is lockable with a padlock (not included)**
- **Dual outlet fittings: 1" and 2" on both the short and long side**
- **Three runners for stable transport and stacking**
- **Food-grade and widely applicable, e.g. as a gritting salt bin**
- **Temperature resistant from -30°C to +40°C (short-term up to +90°C)**
- **Options: printing - QR codes and barcodes - drop door - mobile version - loose runners - check taps – screw plugs**

Description

The BIG BOX plastic pallet box 1200 × 800 × H830 mm (with lid) is a robust and versatile solution for storage and transport. Thanks to the closed, convex walls, this box offers up to 10% more internal volume than standard pallet boxes without taking up extra floor space. With a capacity of 535 litre and a reinforced base, it is suitable for both heavy and light-duty applications.
The pallet box is liquid-tight and fitted with three runners, allowing stable handling with a forklift truck or pallet truck. The hinged lid features a hook-in flip-over safety catch and can be removed when opened horizontally (180°). For extra ease of use, the lid has a handle on top. The two stainless-steel hinges ensure a long service life.
The box is made from high-quality HDPE, resistant to temperatures from -30°C to +40°C (short-term up to +90°C) and suitable for direct contact with food. This makes it widely used in the food industry, but also in other sectors such as chemicals, logistics, agriculture and for storing gritting salt.

Stainless-steel toggle latches

This BIG BOX pallet box is **latched** with two stainless-steel toggle latches (adjustable, L115–125 mm). The latches are robust, corrosion-resistant and designed for intensive use. Thanks to the adjustability, they always close tightly and securely, even after prolonged use.
The latches are **lockable**. A padlock can be used for this purpose (not included). This offers a practical solution where the contents need to be securely closed or protected, for example when storing valuable goods, hazardous substances or food.
