Description

A mobile MINI BOX (1040 x 640 x H 795 mm - 285 liter) is a robust box for the storage and transport of medium-sized quantities of goods.

Storage

For storage, this box offers a capacity of 285 litres. Generous enough for a wide range of applications in warehouses, with moving companies and at order-picking stations - wherever compact working is required. The mobility of this mobile MINI BOX also allows for highly flexible working. The box can be moved easily without internal transport equipment. Thanks to its size, a MINI BOX is also highly manoeuvrable.

Transport

The transport of goods can also be handled flexibly. Over shorter distances manually, and over longer distances the box can be moved easily with a forklift and even stacked - including with wheels. The reinforced walls and base provide good protection for the contents. MINI BOXES are load-bearing, impact-resistant and resistant to UV and weather influences. In short, a mobile MINI BOX is a highly manoeuvrable box that enables compact working while offering optimum protection for the load.
