Description

Multi Purpose container (MP container, dimensions 968 x 776 x H930 mm - 400 liter) used as a transport bin or grit salt bin. The bin is fitted with a hinged lid that is latched. The side walls and base of the large-volume container are fully closed and seamlessly smooth. Because the bin is made from homogeneous HDPE, it is impact-resistant and freeze-resistant down to -30°C. This makes it highly suitable for use as a grit salt bin.
