Description

BIG BOX plastic pallet box (1200 x 800 x H 830 mm - 535 liter). Pallet box on three runners - with drop door and hinged lid. The drop door can only be opened when the lid is lifted by a few centimetres. With closed side walls and a reinforced base. The lid is fitted with an anti-flip safety device. The pallet box is equipped with a 1" and 2" outlet provision on both one short side and one long side. The BIG BOX pallet box has convex, outward-facing wall panels for optimum bin volume. This provides up to 10% extra volume compared to conventional pallet boxes. In particular, assembly lines, order-picking departments and warehouse locations are satisfied users of this practical pallet box variant.
