Lid provided with two snap-slide locks

With two case handles on the short sides

Lidded bins have a removable, hinged lid

All lidded bins with case handle are stackable with lid

The lidded bin with case handle is provided with an extra strong diamond-pattern base

Description

Black plastic case measuring 400 x 300 mm. The case has a capacity of 37.5 liters and a height, including a reinforced bottom, of 415 mm. Comprised of a completely closed stackable container with a reinforced bottom, hinged lid with two snap-slide closures, and two handles on both sides. The reinforced bottom allows for trouble-free transportation of heavier loads inside the case without sagging. Due to its Euronorm dimensions, the case perfectly fits standardized pallets, roll containers, and mobile bases. The case is securely sealed during transportation. Inside the case, cargo can be transported dust-free and safely. We provide seals and label holders as accessories for the cases.
