Description

Plastic **stacking bin** in **Euronorm format** (**400 x 300 x H 400 mm** - 37.5 liter). Finished in **white** and part of our **SOLID LINE** - a product range suitable for a wide variety of applications. Users can be found in industry and skilled trades, as well as in hospitality, catering and logistics.

Thanks to its **standardised dimensions** (400 x 300 mm), the stacking bin can be **stacked with all other Euronorm stacking bins** and is **perfectly compatible** with **standardised pallets**, **transport trolleys** and **roll containers**.

The stacking bin is food-safe, features a **hygienic design** and is fitted with two closed handgrips - for optimal use of the internal volume and to help protect the contents from external influences. Fitted with a **reinforced base** on the underside.

The stacking bin is also **suitable for fitting hinged lids**, optionally with snap closures. The lids are available in various **colours**, allowing different applications to be visually identified. We refer to this as **colour coding**. Everything for efficient logistics.
