Max. stacking load (kg)	150 kg
Capacity	7 liter
Handles	Closed
Sidewalls	Closed
Material	PP
Article number	30.408.DB.10
Weight (kg)	0,9 kg
Temperature range	-20°C to +50°C, briefly up to +90°C
Color	Black
Bottom	Closed, smooth
Load capacity (kg)	10
Quantity per pallet	240
Stacking height (mm)	82

Features

Modern stacking bin with hinged lid from the **BLACK LINE**. Dimensions: 400 x 300 x H 90 mm (including lid)

Both the bin and the lid are black

The lid is hinged and fitted with two snap-slide closures

The closures snap shut when the lid is closed. To open, the lid is unlocked by sliding the closures outwards

When open, the lid is removable (if designed without hinge reinforcements)

The bins can be stacked with each other even with the lid fitted, as well as with Euronorm bins without a lid

Fully closed design - both walls and base

With closed handgrips - for optimal volume use and protection against dust etc.

The base is completely smooth and flat for easy cleaning

Widely used for applications where an exclusive appearance is required

Food-safe and hygienically designed

Options: printing - hinged lids in a different colour - hinge reinforcements - foam sheet in the lid - foam interiors

Description

Lidded bin from the BLACK LINE

Plastic stacking bin with hinged lid and two snap-slide closures; in Euronorm format (400 x 300 x H 90 mm - 7 liter). Designed in black and part of our BLACK LINE series.

Application

The BLACK LINE series is a product line used especially for applications where an exclusive appearance is required. Catering, event catering and airport catering are good examples. This product line is also used for the sale and supply of exclusive meat products and fish products. The BLACK LINE series is also very suitable for use in a promotional and business gift context. The stacking bins with hinged lid in particular are often used as outer packaging for business gifts, where the contents can vary greatly. For small parts, additional insert bins are often used in combination with a foam sheet in the lid - so that the contents remain neatly separated. The BLACK LINE series is very extensive and includes not only stacking bins, but also plastic pallets and pallet boxes; it is also regularly expanded.

Product details

Due to its standardised dimensions (400 x 300 mm), the stacking bin with lid can be stacked with all other Euronorm stacking bins and is perfectly compatible with standardised pallets, mobile plastic trolleys or roll containers.

The lidded bin is food-safe, has a hygienic design and is fitted with two closed handgrips - for optimal use of the bin's volume and to protect the contents as effectively as possible against external influences. Designed with a smooth, easy-to-clean base (underside).
