| Load capacity (kg) | 20 |
| Quantity per pallet | 124 |

With a smooth bottom and closed handles.

Lid containers can also be stacked with their respective lids.

Lid containers feature a detachable hinged lid.

The lid container comes with two snap-slide closures in the lid.

Description

This lid container has the practical Euro norm dimensions of 600 x 400 mm. Consequently, it is stackable with all other Euro norm lid containers and stacking containers. Additionally, it perfectly fits without space wastage on a standardized pallet, rolling container, or mobile base. The lid container is composed of a fully enclosed stacking container with a hinged lid and two snap-slide closures. These closures ensure secure sealing and easy opening of the lid container. The lockable lid prevents the cargo from getting lost, damaged, or contaminated during transport.
