## Description

Very sturdy stackable crate in Euro size 600 x 400 mm. The crate is made of food-grade plastic and has a temperature resistance of -40°C to 70°C. The side walls and bottom are perforated, offering optimal ventilation for the contents. For these reasons, this crate is highly suitable for applications in the (industrial) food sector, textile industry, hospitality, and bakeries. The crate has a reinforced bottom, ensuring minimal bending even under heavy loads and extreme conditions. With its robust construction and standardized dimensions, it is an efficient stackable crate for various applications. This crate perfectly integrates with other Euro-sized stacking containers and crates, as well as standardized pallets, roll containers, and mobile bases.
