With large Ø 204 mm filling opening

Wide-neck drums are airtight, vapour-tight and liquid-tight thanks to the screw lid with rubber seal

UN-approved for packing groups I, II and III

UV-resistant

Description

26 liter wide-mouth drum with dimensions Ø 316 x H 424 mm. Hermetically sealing drum made from UV-resistant plastic. Fitted with a filling opening Ø 204 mm and four recessed handles on the lid rim. Stackable and palletisable. Thanks to the hermetically sealing screw lid with rubber inner ring, the wide-neck drum is vapour-tight, airtight and liquid-tight. The wide-mouth drum is therefore highly suitable for use in the food industry and in freezer environments (UN-approved for packing groups I, II and III). Can also be used as a water container. Wide-mouth drums are ideal for use as feed barrels for storing animal feed. A wide-mouth drum with a 26 liter capacity is suitable for approx. 10 kg of animal feed.
