Product specifications

External (LxWxH)	1200 × 1000 × 1195 mm
Internal (LxWxH)	1110 × 910 × 995 mm
Capacity	900 litre
Color	Grey
Sidewalls	Closed, with smooth inner walls.
Material	HDPE
Article number	81941811.DUO-H1195.BD120
Weight (kg)	70 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Bottom	Closed and reinforced, with a central bottom outlet.
Max. load capacity per box	700 kg
Max. static stacking load	4000 kg
Max. dynamic stacking load	1200 kg
Quantity per pallet	2

Features

- **Plastic pallet box with hopper base on pallet skids - made entirely from plastic**
- **Type: Based on two SB3 pallet boxes - 1200 x 1000 x H 1195 mm - 2 skids and 1 foot - grey**
- **Load capacity: 700 kg**
- **Capacity: 900 liter**
- **Material: PE plastic (polyethylene) - corrosion-free and durable**
- **Base: Tapered hopper base**
- **Angle: The sloping base with a 35? incline promotes easy emptying without tilting**
- **Opening: Central opening of 120 x 120 mm (optionally 140 x 140 mm or 240 x 240 mm)**
- **Slide valve: Manually operated from the short side for controlled release of the contents**
- **Application: Ideal for dry bulk goods such as granulates, seeds, grain, dry animal feed, pellets and other small components**
- **Design: Smooth, hopper-shaped interior to promote easy product flow**
- **Stacking: Stable stacking using the Euro stacking system, i.e. rim-stackable and therefore compatible with most other pallet box types**
- **Stability: Very robust pallet box made in one piece, i.e. including the pallet skids - welded 2-high**
- **Welding: Welded on the inside and outside**
- **Impact protection: Fitted all around with a strong rib structure above the entry openings to prevent impact damage**
- **Food safety: Suitable for direct contact with food**
- **Cleaning: Thanks to the smooth design, the box is easy to clean. The plastic used is resistant to most cleaning agents and chemicals**
- **Limitations: Not suitable for liquids and moist products. Less suitable for powders (test beforehand)**
- **Other height dimensions: This SB3 hopper box in DUO format is available with an overall height from 1195 up to max. 1285 mm. This version is welded all around on the inside; on the outside only at the four corners**
- **Options: Lid - RFID code - QR code or barcode - box in alternative colours: blue, yellow, green, red and black - central outlet opening 140 x 140 mm or 240 x 240 mm**

Description

The **SB3 DUO pallet box with hopper base** has dimensions of **1200 x 1000 x H 1195 mm** and a capacity of 900 liter. The box consists of two SB3 pallet boxes that are seamlessly welded together. This large-format plastic pallet box features a **120 x 120 mm outlet** on the underside, centrally positioned in the base. This opening can be closed manually with a **slide valve**, operated from the **short side** of the box.

The inside of the SB3 DUO box is smooth and **hopper-shaped at the bottom** with a 35-degree slope, allowing the contents to flow out easily when the slide valve is opened. This eliminates the need to tilt or tip the box. Ideal for dosing dry bulk goods such as seeds, grain and dry animal feed, as well as granulates, wood pellets and small components. The pallet box and the entire internal structure are made from **food-safe** plastic, making direct contact with food no problem.
